

Hi! I'm Christina Perera

UI/UX DESIGNER -
SOFTWARE ENGINEER

I am an undergraduate Software Engineer and UI/UX Designer specializing in full-stack development. I design and develop modern, responsive applications that prioritize usability, performance, and clean architecture. I create engaging digital experiences that are both technically robust and visually compelling.

I'm a quick learner with a keen eye for detail, passionate about usability and accessibility. My goal is to build impactful, modern websites and applications.
